

2021/0201(COD)

8.2.2022

AMENDMENTS

506 - 734

Draft report

Ville Niinistö

(PE699.175v01-00)

Amending Regulations (EU) 2018/841 as regards the scope, simplifying the compliance rules, setting out the targets of the Member States for 2030 and committing to the collective achievement of climate neutrality by 2035 in the land use, forestry and agriculture sector, and (EU) 2018/1999 as regards improvement in monitoring, reporting, tracking of progress and review

Proposal for a regulation

(COMx – C9-x – 2021/0201(COD))

Amendment 506
Manuel Bompard

Proposal for a regulation

Article 1 – paragraph 1 – point 7 – point b a (new)

Regulation (EU) 2018/841

Article 9 – paragraph 3 a (new)

Text proposed by the Commission

Amendment

(ba) the following paragraph 3 a is added:

'3a. In the delegated acts adopted pursuant to paragraph 2, the Commission shall lay out sustainable harvesting criteria in order to ensure that the life cycle of harvested wood products does not do significant harm to environmental objectives within the meaning of Article 17 of Regulation (EU) 2020/852.'

Or. en

Amendment 507

María Soraya Rodríguez Ramos, Catherine Chabaud, Susana Solís Pérez

Proposal for a regulation

Article 1 – paragraph 1 – point 8 – point a

Regulation (EU) 2018/841

Article 10 – paragraph 1

Text proposed by the Commission

Amendment

At the end of the period from 2021 to 2025, Member States may exclude from their accounts for afforested land and managed forest land greenhouse gas emissions, resulting from **natural** disturbances, that exceed the average emissions caused by natural disturbances in the period from 2001 to 2020, excluding statistical outliers ('background level'). That background level shall be calculated in accordance with this Article and Annex VI.;

At the end of the period from 2021 to 2025, Member States may exclude from their accounts for afforested land and managed forest land greenhouse gas emissions, resulting from disturbances **as a result of natural processes or climate change**, that exceed the average emissions caused by natural disturbances in the period from 2001 to 2020, excluding statistical outliers ('background level'). That background level shall be calculated in accordance with this Article and Annex VI.;

Amendment 508
Silvia Modig

Proposal for a regulation
Article 1 – paragraph 1 – point 8 – point b
Regulation (EU) 2018/841
Article 10 – paragraph 2

Text proposed by the Commission

(b) in paragraph 2, point (b), ‘2030’ is replaced by ‘2025’:

Amendment

(b) paragraph 2 is replaced by *the following*:

‘2. A Member State *may apply* paragraph 1, *provided that the following conditions are fulfilled*:

(-a) *there is a positive trend in relation to the Member State concerning the conservation status of habitats under Directives 92/43/EEC and 2009/147/EC of the European Parliament and of the Council*;

(-aa) *the Member State has exhausted all other flexibilities available pursuant to Article 12, 13 and 13a of this Regulation*;

(a) *the Member State has submitted to the Commission information on the background level for the land accounting categories referred to in paragraph 1 and on the data and methodologies used in accordance with Annex VI*;

(b) *the Member State has excluded from accounting until 2025 all subsequent removals on the land affected by natural disturbances*; and

(ba) *the Member State has effectively revised its integrated national energy and climate plan and long-term strategy submitted pursuant to Article 11(-1) and has adopted new measures to enhance of all land sinks and reservoirs in a way that contributes to enhancing biodiversity, and to reduce the vulnerability of the land to*

natural disturbances.'

Proposal for a regulation
Article 1 – paragraph 1 – point 9 – point a a (new)
Regulation (EU) 2018/841
Article 11 – paragraph -1 (new)

Text proposed by the Commission

Amendment

(aa) the following paragraph – 1a is inserted:

‘-1. Updated and subsequent National Energy and Climate Plans and Long-term Strategies as referred to in Articles 3, 14 and 15 of Regulation (EU) 2018/1999 shall comprise measures for the achievement of the annual targets set out in Article 4(3) and the implementation of sustainable harvesting criteria for

harvested wood products set out in article 9(4). These measures shall be duly reasoned and substantiated. They shall in particular set out the following elements:

(a) an explanation of how they enforce the implementation of existing measures to prevent the conversion of forest land, cropland and grassland to settlements or infrastructures by reducing the rates of soil sealing and enforcing environmental legislation, in particular Council Directive 92/43/EEC^{1a} and Directive 2000/60/EC of the European Parliament and of the Council^{1b};

(b) an explanation of how they manage and reduce pressure from consumption on forest land, cropland and grassland in order to reduce intensity of land use and biomass extraction;

(c) a qualitative explanation of how they are expected to increase forest land areas, support restoration of forest carbon stocks, and conserve carbon in wetlands;

(d) a detailed explanation of how native tree species are adapted to site conditions for afforestation, reforestation and restoration of forest land are being favoured;

(e) a qualitative explanation of how they prioritize the protection and restoration of biodiversity over land use conversion;

(f) a qualitative explanation of how they prioritize the removal of pressures from resource and land use over active ecosystem restoration.

If a Member State fails to meet its annual target as set out in Article 4(3) for two consecutive years, it shall amend its National Energy and Climate Plan and Long-term Strategy and adopt additional measures to enhance the protection of existing natural carbon sinks and reduce pressures on land use and demand for land, in a way that enhances current levels of biodiversity and ecosystem

resilience. Such amendment shall be completed within six months of the second year in which the Member State concerned failed to meet its annual target.

The Commission may issue recommendations identifying how the National Energy and Climate Plans and the Long-term Strategy of the Member State concerned should be revised. The Commission shall make such recommendations publicly available.

The Member State concerned shall notify the revised National Energy and Climate Plan and Long-term Strategy pursuant to paragraph 1 to the Commission accompanied by a statement setting out how the proposed revision will remedy non-compliance with the annual targets, and how the Commission's recommendations have been taken into account.

Where the Commission finds that the revised National Energy and Climate Plan or the Long-term Strategy have been insufficiently amended to meet the annual targets of the Member State concerned, the Commission may open an infringement procedure in accordance with the TEU and TFEU.

Proposal for a regulation

Article 1 – paragraph 1 – point 9 – point a a (new)

Regulation (EU) 2018/841

Article 11 – paragraph -1 a (new)

Text proposed by the Commission

Amendment

(ab) the following paragraph -1 b is added:

‘-1a. If a Member State fails to meet its annual target as set out in Article 4(3) for two consecutive years, it shall amend its National Energy and Climate Plan and Long-term Strategy as referred to in Articles 3 and 15 of Regulation (EU) 2018/1999, and adopt additional measures to enhance all land sinks and reservoirs in a way that contributes to enhancing biodiversity, and to reduce the vulnerability of the land to natural disturbances. Such amendment shall be completed within six months of the second year in which the Member State concerned failed to meet its annual target.

The Commission may issue recommendations identifying how the National Energy and Climate Plans and the Long-term Strategy of the Member State concerned is to be revised. The Commission shall make such recommendations publicly available.

The Member State concerned shall notify the revised National Energy and Climate Plan and Long-term Strategy to the Commission accompanied by a statement setting out how the proposed revision will remedy non-compliance with the annual targets and how the Commission's recommendations have been taken into account.

Where the Commission finds that the revised National Energy and Climate Plan or the Long-term Strategy have been insufficiently amended to meet the annual targets of the Member State concerned, the Commission may open an

infringement procedure in accordance with the TEU and TFEU.'

Amendment 523

Anna Zalewska, Alexandr Vondra, Roberts Zīle, Veronika Vrecionová

Proposal for a regulation

Article 1 – paragraph 1 – point 10 – point a

Regulation (EU) 2018/841

Article 11 – paragraph 3

Text proposed by the Commission

Amendment

(a) paragraph 3 is deleted;

deleted

Or. en

Justification

It is not advisable to support the deletion of Article 12(3). Due to the high dependence on many natural factors, the occurrence of which is difficult to predict, this is a proposal to maintain the possibility of storing the remaining amount of removals greater than the emissions from the period 2021-2025 for the period 2026-2030. This solution is an incentive to achieve highest removals possible in the period 2021-2025.

Amendment 526

Inese Vaidere

Proposal for a regulation

Article 1 – paragraph 1 – point 10 – point a

Regulation (EU) 2018/841

Article 11 – paragraph 3

Text proposed by the Commission

Amendment

(a) *paragraph 3 is deleted;*

(a) *paragraph 3 is replaced by the following:*

‘3. To the extent that total removals exceed total emissions in a Member State in the period from 2021 to 2025, and after subtraction of any quantity taken into account under Article 7 of Regulation (EU) 2018/842 or transferred to another Member State pursuant to paragraph 2 of this Article, that Member State may bank the remaining quantity of removals to the period from 2026 to 2030.’;

Or. en

Justification

Previous approach needs to be continued. Forestry should be considered as a long-term policy. Member States must be given opportunity transfer removal credits from 2021-2025 to period 2026-2030 and use these credits to compensate reduction of removals and existing emissions in 2026-2030. This gives motivation to MS to introduce additional long-term measures at the national level for the creation of removal credits in the period 2021-2025 and

to contribute to EU target of reducing net greenhouse gas emissions by at least 55% by 2030 and to become climate neutral by 2050.

Amendment 527

Nils Torvalds, Emma Wiesner, Ulrike Müller

Proposal for a regulation

Article 1 – paragraph 1 – point 10 – point a

Regulation (EU) 2018/841

Article 12 – paragraph 3

Text proposed by the Commission

Amendment

(a) paragraph 3 *is deleted*;

(a) paragraph 3 *is replaced by the following*:

‘To the extent that total removals exceed total emissions in a Member State in the period from 2021 to 2025, and after subtraction of any quantity taken into account under Article 7 of Regulation (EU) 2018/842 or transferred to another Member State pursuant to paragraph 2 of this Article, that Member State may bank the remaining quantity of removals to the period from 2026 to 2030’;

Or. en

Justification

Member States should be able to use the flexibilities, as the annual fluctuations caused by the changes in the nature and demand in the economy and society. That is why paragraph 3 is important to keep as it stands in the current legislation.

Proposal for a regulation
Article 1 – paragraph 1 – point 11
Regulation (EU) 2018/841
Article 13

Text proposed by the Commission

Amendment

(11) Article 13 is replaced by the following: *deleted*

Article 13

Managed forest land flexibility

1. Where, in the period from 2021 to 2025, total emissions exceed total removals in the land accounting categories referred to in Article 2(1), [accounted for in accordance with this Regulation,] in a Member State, that Member State may use the managed forest land flexibility set out in this Article in order to comply with Article 4(1).

2. Where, in the period from 2021 to 2025, the result of the calculation referred to in Article 8(1) is a positive figure, the Member State concerned shall be entitled to compensate emissions resulted from the calculation provided that the following conditions are fulfilled:

(a) the Member State has included in its strategy submitted in accordance with Article 15 of Regulation (EU) 2018/1999 ongoing or planned specific measures to ensure the conservation or enhancement, as appropriate, of forest sinks and reservoirs; and

(b) total emissions within the Union do not exceed total removals in the land accounting categories referred to in Article 2(1) of this Regulation for the period from 2021 to 2025.

When assessing whether, within the Union, total emissions exceed total removals as referred to in the first subparagraph, point (b), the Commission shall ensure that double counting is avoided by Member States, in particular in the exercise of the flexibilities set out in

Article 12 of this Regulation and Articles 7(1) or 9(2) of Regulation (EU) 2018/842.

3. The compensation referred to in paragraph 2 may only cover sinks accounted for as emissions against the forest reference level of that Member State and may not exceed 50 % of the maximum amount of compensation for the Member State concerned set out in Annex VII for the period from 2021 to 2025.

4. Member States shall submit evidence to the Commission concerning the impact of natural disturbances calculated pursuant to Annex VI in order to be eligible for compensation of remaining sinks accounted for as emissions against its forest reference level, up to the full amount of unused compensation by other Member States set out in Annex VII for the period from 2021 to 2025. In case the demand for compensation exceeds the amount of unused compensation available, the compensation shall be distributed proportionally among the Member States concerned.’;

1. Where, in the period from 2021 to 2025, total emissions exceed total removals in the land accounting categories referred to in Article 2(1), [accounted for in accordance with this Regulation,] in a Member State, that Member State may use the managed forest land flexibility set out in this Article in order to comply with Article 4(1).

Amendment

1. Where, in the period from 2021 to 2025, total emissions exceed total removals in the land accounting categories referred to in Article 2(1), **and where, in the period from 2026 onwards, the annual sum of greenhouse gas emissions and removals exceeds the limit established in the linear trajectory and in Annex IIa, in the land accounting categories referred to in Article 2(2),**[accounted for in accordance with this Regulation,] in a Member State, that Member State may use the managed forest land flexibility set out in this Article in order to comply with Article 4(1). **2. Where, in the period from 2021 to 2025, the result of the calculation referred to in Article 8(1) is a positive figure, and where, in the period from 2026 onwards,**

the limit laid down in Article 4 and Annex IIa is exceeded, the Member State concerned shall be entitled to compensation emissions resulted from the calculation provided that the following conditions are fulfilled:

Amendment 547
César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, María Soraya Rodríguez Ramos, Marcos Ros Sempere

Proposal for a regulation
Article 1 – paragraph 1 – point 11
Regulation (EU) 2018/841
Article 13 – paragraph 3

Text proposed by the Commission

3. The compensation referred to in paragraph 2 may only cover sinks accounted for as emissions against the forest reference level of that Member State and may not exceed **50** % of the maximum amount of compensation for the Member State concerned set out in Annex VII for the period from 2021 to 2025.

Amendment

3. The compensation referred to in paragraph 2 may only cover sinks accounted for as emissions against the forest reference level of that Member State and may not exceed **20** % of the maximum amount of compensation for the Member State concerned set out in Annex VII for the period from 2021 to 2025.

Or. en

Justification

Original 356 million tonnes of CO₂ equivalent available for 2021-2030 flexibilities agreed and included in the current LULUCF regulation had been split in the proposal as 50% for 2021-2025 period and 50% for 2026-2030 period. Considering the subsequent reduction of land available to improve performance in the LULUCF sector and the expected evolution of the impacts on agricultural and forest sinks, we propose a distribution of 20% for 2021-2025

(71 million tonnes of CO₂ equivalent) and 80% for 2026-2030 (285 million tonnes of CO₂ equivalent).

Amendment 548

3. The additional compensations may *[not]* be subject to transfer pursuant to Article 12 of this Regulation or Article 7 of Regulation (EU) 2018/842.

Or. en

Amendment 562

Dolors Montserrat

Proposal for a regulation

Article 1 – paragraph 1 – point 12 a (new)

Regulation (EU) 2018/841

Article 13 a (new)

(12a) the following Article 13aa is inserted:

'Article 13aa

Additional compensations

1. A land use flexibility corresponding to a quantity of up to 25 million tonnes of CO₂ equivalent shall be established for Spain.

2. Where, in the period from 2026 to 2030, the difference between the annual sum of the greenhouse gas emissions and removals on the territory of Spain and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the corresponding target is positive, accounted and reported in accordance with this Regulation, that Member State may use the flexibility set out in this Article in order to comply with its target set out pursuant to Article 4(2).

3. Spain shall be entitled to use this flexibility provided that the following conditions are fulfilled:

(a) Spain has reported net removals for each year of the period from 2026 to 2030;

(b) Spain has included in its updated integrated national energy and climate plan submitted pursuant to Article 14 of Regulation (EU) 2018/1999 ongoing or planned specific measures to ensure the conservation or enhancement, as appropriate, of all land sinks and reservoirs, and to reduce the vulnerability of the land to natural disturbances;

(c) Spain has submitted evidence to the European Commission regarding the natural disturbances and the effects of climate change that hinder the achievement of the projected level of net removals;

(d) Spain has exhausted the flexibility available pursuant to Article 7(1) of Regulation (EU) 2018/842;

3. The additional compensations may not be subject to transfer pursuant to Article 12 of this Regulation or Article 7 of Regulation (EU) 2018/842.

4. Any unused additional compensations out of the amount of 25 million tonnes CO₂ equivalent referred to in paragraph 1 shall be cancelled’.

Or. en

Justification

The European Commission has set the targets in Annex IIa assuming that the baseline targets for Member States (the ones corresponding to overall net removals of 225 MtCO₂eq) maybe substantially improved simply because they are lower than their LULUCF performance during 2016, 2017 and 2018. For decades Spain has invested in afforestation measures with environmental objectives (fight against erosion, soil fixation, etc.), rather than exploiting its forests with commercial purposes. However, the figure of 43.635 ktCO₂eq for Spain is unachievable due to the risk of desertification of a great part of the territory and the reduction of water availability. As a result of the effects of climate change, parts of the afforested areas are beginning to dry and die, even in mountainous areas. Similar Member States - be it in size, humidity conditions or weather - have less ambitious targets than Spain, in absolute and relative terms. A new flexibility should be created to compensate for the special circumstances in the case of Spain that has already depleted its potential for new removals.

Amendment 563

César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, María Soraya Rodríguez Ramos, Marcos Ros Sempere

Proposal for a regulation

Article 1 – paragraph 1 – point 12 a (new)

Regulation (EU) 2018/841

Article 13 a a (new)

Text proposed by the Commission

Amendment

(12a) the following Article 13aa is inserted

Article 13aa

‘Additional compensations due to the

impact of climate change

An additional compensation of up to an amount of [50] million tonnes of CO₂ equivalent accounted emissions and removals in the period from 2026 to 2030 or the equivalent percentage over the goal of 310 million tonnes of CO₂ equivalent, in all of the land reporting categories referred to in Article 2(2), points (a) to (j), is enabled due to ecosystem perturbations driven by climate change, for the use of Member States in order to comply with its target set out pursuant to Article 4(2), provided that the member state demonstrates those perturbations driven by climate change had an influence in the accounted emissions and removals from 2026 to 2030 and that measures are planned in order to ensure conservation of the sinks in the long-term.’;

Or. en

Justification

Recent climate-change research largely confirms the impacts on ecosystems and provides greater mechanistic understanding and geographic specificity for those impacts. As dealing with some of the impacts driven by climate change (extended droughts, more harmful wildfires, emissions due to pests and diseases) will require specific, preventing management (that will probably reduce the sink), this management should be encouraged by enabling this new flexibility allowing not affecting accounting in order to ensure conservation of the sinks in the long-term.

Amendment 569
César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, María Soraya Rodríguez Ramos, Marcos Ros Sempere

Proposal for a regulation
Article 1 – paragraph 1 – point 13
Regulation (EU) 2018/841
Article 13 b – paragraph 1

Text proposed by the Commission

1. A land use flexibility mechanism corresponding to a quantity of up to **178** million tonnes of **CO₂** equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The flexibility mechanism shall be available in addition to the flexibilities provided for in Article 12.

Amendment

1. A land use flexibility mechanism corresponding to a quantity of up to **285** million tonnes of **CO₂** equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The flexibility mechanism shall be available in addition to the flexibilities provided for in Article 12, ***and could be incremented with the surplus of not used managed forest land flexibility set out in article 13 for the period 2021-2025.***

Or. en

Justification

Original 356 million tonnes of CO₂ equivalent available for 2021-2030 flexibilities agreed and included in the current LULUCF regulation had been split in the proposal as 50% for 2021-2025 period and 50% for 2026-2030 period. Considering the subsequent reduction of land available to improve performance in the LULUCF sector and the expected evolution of the impacts on agricultural and forest sinks, we propose a distribution of 20% for 2021-2025 (71 million tonnes of CO₂ equivalent) and 80% for 2026-2030 (285 million tonnes of CO₂ equivalent).

Amendment 571

Martin Hojsik, Michal Wiezik, Róża Thun und Hohenstein

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 b – paragraph 1

Text proposed by the Commission

1. A **land use flexibility** mechanism

Amendment

1. A **natural disturbances** mechanism

corresponding to a quantity of up to 178 million tonnes of CO₂ equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The flexibility ***mechanism*** shall be available in addition to the flexibilities provided for in Article 12.

corresponding to a quantity of up to 178 million tonnes of CO₂ equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The ***natural disturbances*** flexibility shall be available in addition to the flexibilities provided for in Article 12.

Or. en

Amendment 572
Silvia Modig

Proposal for a regulation
Article 1 – paragraph 1 – point 13
Regulation (EU) 2018/841
Article 13 b – paragraph 1

Text proposed by the Commission

1. A ***land use flexibility mechanism*** corresponding to a quantity of up to ***178*** million tonnes of CO₂ equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The ***flexibility*** mechanism shall be available in addition to the flexibilities provided for in Article 12.

Amendment

1. A ***natural disturbance solidarity*** corresponding to a quantity of up to ***89*** million tonnes of CO₂ equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The ***natural disturbance*** mechanism shall be available in addition to the flexibilities provided for in Article 12.

Or. en

Amendment 573
Dolors Montserrat

Proposal for a regulation
Article 1 – paragraph 1 – point 13
Regulation (EU) 2018/841
Article 13 b – paragraph 1

Text proposed by the Commission

1. A land use flexibility mechanism corresponding to a quantity of up to **178** million tonnes of CO₂ equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The flexibility mechanism shall be available in addition to the flexibilities provided for in Article 12.

Amendment

1. A land use flexibility mechanism corresponding to a quantity of up to **267** million tonnes of CO₂ equivalent shall be established in the Union Registry established pursuant to Article 40 of Regulation (EU) No 2018/1999, subject to the fulfilment of the Union target referred to in Article 4(2). The flexibility mechanism shall be available in addition to the flexibilities provided for in Article 12.

Amendment 574

Delara Burkhardt, Günther Sidl, Rovana Plumb, Demetris Papadakis

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 b – paragraph 2

Text proposed by the Commission

2. Where, in the period from 2026 to 2030, the difference between the annual sum of the greenhouse gas emissions and removals on the territory of a Member State and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the corresponding target is positive, accounted and reported in accordance with this Regulation, that Member State may use the **flexibility** set out in this Article in order to comply with its target set out pursuant to Article 4(2).

Amendment

2. Where, in the period from 2026 to 2030, the difference between the annual sum of the greenhouse gas emissions and removals on the territory of a Member State and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the corresponding target is positive, accounted and reported in accordance with this Regulation, that Member State may use the **natural disturbances solidarity mechanism** set out in this Article in order to comply with its target set out pursuant to Article 4(2).

Or. en

Amendment 575

Silvia Modig

Proposal for a regulation
Article 1 – paragraph 1 – point 13
Regulation (EU) 2018/841
Article 13 b – paragraph 2

Text proposed by the Commission

2. Where, in the period from 2026 to 2030, the difference between the annual sum of the greenhouse gas emissions and removals on the territory of a Member State and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the corresponding target is positive, accounted and reported in accordance with this Regulation, that Member State may use the ***flexibility*** set out in this Article in order to comply with its target set out pursuant to Article 4(2).

Amendment

2. Where, in the period from 2026 to 2030, the difference between the annual sum of the greenhouse gas emissions and removals on the territory of a Member State and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the corresponding target is positive, accounted and reported in accordance with this Regulation, that Member State may use the ***mechanism*** set out in this Article in order to comply with its target set out pursuant to Article 4(2).

Text proposed by the Commission

(a) the Member State has ***included in its updated*** integrated national energy and climate plan submitted pursuant to Article 14 of Regulation (EU) 2018/1999 ongoing or planned specific measures to ***ensure the conservation or enhancement, as appropriate,*** of all land sinks and reservoirs, and to reduce the vulnerability of the land to natural disturbances;

Amendment

(a) the Member State has ***effectively revised its*** integrated national energy and climate plan ***and long-term strategy*** submitted pursuant to Article 11(-1) and ***has adopted new*** measures to ***enhance*** of all land sinks and reservoirs ***in a way that contributes to enhancing biodiversity,*** and to reduce the vulnerability of the land to natural disturbances;

Or. en

Amendment 583
Delara Burkhardt, Günther Sidl

Proposal for a regulation
Article 1 – paragraph 1 – point 13

Text proposed by the Commission

Amendment

(aa) the Member State has demonstrated that the positive result is directly linked to the impact of natural disturbances that exceed the average emissions caused by natural disturbances in the period from 2006 to 2025, excluding statistical outliers ('background level'). That background level shall be calculated in accordance with this Article and Annex VIII (new). To this end a Member State shall:

- submit to the Commission information on the background level for the land accounting categories affected by natural disturbances and on the data and methodologies used in accordance with Annex VIII (new). The Commission may reject the evidence submitted by the Member State if it deems it is insufficiently justified or disproportionate;***
- exclude from accounting until 2035 all subsequent removals on the land affected by natural disturbances.***

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the Union target *[of 310 million tonnes CO₂ equivalent of net removals]* is negative, in the period from 2026 to 2030.

Amendment

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the Union target *of 600 million tonnes CO₂ equivalent of net removals, after exhausting all the other flexibilities available pursuant to Article 12,* is negative, in the period from 2026 to 2030.

Amendment 591
Dan-Ştefan Motreanu, Norbert Lins, Henna Virkkunen, Pernille Weiss, Christophe Hansen, Marian-Jean Marinescu, Marlene Mortler, Herbert Dorfmann, Deirdre Clune, Liudas Mažylis, Inese Vaidere

Proposal for a regulation
Article 1 – paragraph 1 – point 13
Regulation (EU) 2018/841
Article 13 b – paragraph 3 – subparagraph 1 – point c

Text proposed by the Commission

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the Union target *[of 310 million tonnes CO₂ equivalent of net removals]* is negative, in the period from 2026 to 2030.

Amendment

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the Union target *[equivalent to a 15 % increase in the average greenhouse gas emissions and removals from the years*

2018, 2019 and 2020], in the period from 2026 to 2030.

Or. en

Amendment 592

Edina Tóth

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 b – paragraph 3 – subparagraph 1 – point c

Text proposed by the Commission

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the Union target [**of 310 million tonnes CO₂ equivalent of net removals**] is negative, in the period from 2026 to 2030.

Amendment

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j), and the Union target is negative, in the period from 2026 to 2030.

Or. en

Justification

Taking into consideration the decreasing sectoral carbon sinks, and that the current sequestration of the sector is about 268 million tonnes, the 310 million target under LULUCF cannot be supported.

Amendment 595

Ivan David

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 b – paragraph 3 – subparagraph 1 – point c

Text proposed by the Commission

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j),

Amendment

(c) the difference in the Union between the annual sum of all greenhouse gas emissions and removals on its territory and in all of the land reporting categories referred to in Article 2(2), points (a) to (j),

and the Union target *[of 310 million tonnes CO₂ equivalent of net removals]* is negative, in the period from 2026 to 2030.

and the Union target *of at least 225 million tonnes CO₂ equivalent of net removals*, is negative, in the period from 2026 to 2030.

Or. en

Justification

The proposed level of an EU wide carbon removal target of 310 Mt of CO₂eq would mean leaving substantial part of the forests unmanaged and postponing necessary, well-planned forest management operations as well as reducing renewable materials needed to meet the challenge of decarbonising the European economy by substituting fossil-based materials. Already to keep the current level (-268Mt) of EU carbon removals by 2030, some Member States may have to decrease their harvesting levels which could have severe consequences on the economic viability of the entire sector, including on land tenure and local forest owners' and managers' engagement to manage their forests. The European Climate Law sets a sink target of 225 Mt CO₂ that can be counted towards the GHG target. Reducing harvests and increasing the area of unmanaged forests has a negative carbon effect in the long term.

Amendment 596

Delara Burkhardt, Günther Sidl, Rovana Plumb, Demetris Papadakis

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 b – paragraph 3 – subparagraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(ca) The Commission is empowered to adopt delegated acts in accordance with Article 16 to amend Annex VIII in order to revise the information requirements in that Annex to reflect changes in the IPCC Guidelines as adopted by the Conference of the Parties to the UNFCCC or the Conference of the Parties serving as the Meeting of the Parties to the Paris Agreement.

Text proposed by the Commission

4. The amount of the compensation referred to in paragraph 3 of this Article may only cover sinks accounted for as emissions against the target of the Member State in Annex IIa of this Regulation and may not exceed **50** % of the maximum amount of compensation for the Member State concerned set out in Annex VII for the period from 2026 to 2030.

Amendment

4. The amount of the compensation referred to in paragraph 3 of this Article may only cover sinks accounted for as emissions against the target of the Member State ***built upon criteria set out*** in Annex IIa of this Regulation and may not exceed **80** % of the maximum amount of compensation for the Member State concerned set out in Annex VII for the period from 2026 to 2030.

Or. en

Justification

Original 356 million tonnes of CO2 equivalent available for 2021-2030 flexibilities agreed and included in the current LULUCF regulation had been split in the proposal as 50% for 2021-2025 period and 50% for 2026-2030 period. Considering the subsequent reduction of

land available to improve performance in the LULUCF sector and the expected evolution of the impacts on agricultural and forest sinks, we propose a distribution of 20% for 2021-2025 (71 million tonnes of CO2 equivalent) and 80% for 2026-2030 (285 million tonnes of CO2 equivalent).

Amendment 603
Dolors Montserrat

Proposal for a regulation
Article 1 – paragraph 1 – point 13
Regulation (EU) 2018/841
Article 13 b – paragraph 4

Text proposed by the Commission

4. The amount of the compensation referred to in paragraph 3 of this Article may only cover sinks accounted for as emissions against the target of the Member State in Annex IIa of this Regulation and may not exceed **50** % of the maximum amount of compensation for the Member State concerned set out in Annex VII for the period from 2026 to 2030.

Amendment

4. The amount of the compensation referred to in paragraph 3 of this Article may only cover sinks accounted for as emissions against the target of the Member State in Annex IIa of this Regulation and may not exceed **75** % of the maximum amount of compensation for the Member State concerned set out in Annex VII for the period from 2026 to 2030.

Amendment 605

Martin Hojsik, Michal Wiezik, Emma Wiesner, Róza Thun und Hohenstein, Nicolae Ștefănuță

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 b – paragraph 5

Text proposed by the Commission

5. Member States shall submit evidence to the Commission concerning the impact of natural disturbances calculated pursuant to Annex VI, in order to be eligible for compensation of remaining sinks accounted for as emissions against the target of a Member State concerned set out in Annex IIa, up to the full amount of unused compensation by other Member States set out in Annex VII for the period from 2026 to 2030. In case the demand for compensation exceeds the amount of unused compensation available, the compensation shall be distributed proportionally among the Member States concerned.

Amendment

5. Member States shall submit evidence to the Commission concerning the impact of natural disturbances calculated pursuant to Annex VI, in order to be eligible for compensation of remaining sinks accounted for as emissions against the target of a Member State concerned set out in Annex IIa, up to the full amount of unused compensation by other Member States set out in Annex VII for the period from 2026 to 2030. ***The Commission shall make the evidence submitted by the Member States publicly available.*** In case the demand for compensation exceeds the amount of unused compensation available, the compensation shall be distributed proportionally among the Member States concerned.

Or. en

Amendment 606

César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, Marcos Ros Sempere

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 b – paragraph 5

Text proposed by the Commission

5. Member States shall submit evidence to the Commission concerning the impact of **natural** disturbances calculated pursuant to Annex VI, in order to be eligible for compensation of remaining sinks accounted for as emissions against the target of a Member State concerned set out in Annex IIa, up to the full amount of unused compensation by other Member States set out in Annex VII for the period from 2026 to 2030. In case the demand for compensation exceeds the amount of unused compensation available, the compensation shall be distributed **proportionally** among the Member States concerned.

Amendment

5. Member States shall submit evidence to the Commission concerning the impact of disturbances **due to natural processes or as a result of climate change** calculated pursuant to Annex VI, in order to be eligible for compensation of remaining sinks accounted for as emissions against the target of a Member State concerned set out in Annex IIa, up to the full amount of unused compensation by other Member States set out in Annex VII for the period from 2026 to 2030. In case the demand for compensation exceeds the amount of unused compensation available, the compensation shall be distributed **on a pro rata basis** among the Member States concerned.

Or. en

Justification

In accordance with previous proposed changes, ‘natural disturbances’ must be changed here to ‘disturbances due to natural processes or as a result of climate change’. Then, ‘On a pro rata basis’ instead ‘proportionally’, similarly to other regulations, is much clearer.

Amendment 607

María Soraya Rodríguez Ramos, Catherine Chabaud, Susana Solís Pérez

Proposal for a regulation

Article 1 – paragraph 1 – point 13

Regulation (EU) 2018/841

Article 13 — paragraph 5

Text proposed by the Commission

5. Member States shall submit evidence to the Commission concerning the impact of **natural** disturbances calculated pursuant to Annex VI, in order to be eligible for compensation of remaining sinks accounted for as emissions against the target of a Member State concerned set out in Annex IIa, up to the full amount of unused compensation by other Member States set out in Annex VII for the period from 2026 to 2030. In case the demand for compensation exceeds the amount of unused compensation available, the compensation shall be distributed **proportionally** among the Member States concerned.

Amendment

5. Member States shall submit evidence to the Commission concerning the impact of disturbances **as a result of natural processes or climate change** calculated pursuant to Annex VI, in order to be eligible for compensation of remaining sinks accounted for as emissions against the target of a Member State concerned set out in Annex IIa, up to the full amount of unused compensation by other Member States set out in Annex VII for the period from 2026 to 2030. In case the demand for compensation exceeds the amount of unused compensation available, the compensation shall be distributed **on a pro rata basis** among the Member States concerned.

Or. en

Justification

In accordance with previous proposed changes, ‘natural disturbances’ must be changed here to ‘disturbances as a result of natural processes or climate change’. Additionally, ‘on a pro rata basis’ instead ‘proportionally’, similarly to other regulations, is more explicit.

Emma Wiesner, Nils Torvalds, Jessica Polfjärd, Ulrike Müller

Proposal for a regulation
Article 1 – paragraph 1 – point 14
Regulation (EU) 2018/841
Article 13 c

Text proposed by the Commission

Amendment

(14) the following Article 13c is inserted: **deleted**

Article 13c

Governance of the targets

If the reviewed greenhouse gas emissions and removals of a Member State in 2032 exceed the annual targets of that Member State for any specific year of the period 2026 to 2030, taking into account the flexibilities used pursuant to Articles 12 and 13b, the following measure shall apply:

An amount equal to the amount in tonnes of CO₂ equivalent of the excess greenhouse gas net emissions, multiplied by a factor of 1,08, shall be added to the greenhouse gas emission figure reported by that Member State in the following year, in accordance with the measures adopted pursuant to Article 15.;

Or. en

Justification

The LULUCF sector is characterized by natural fluctuations and uncertainties in measuring carbon flows. It is not possible for a Member State to control the carbon flows of the land sector pools for each year. Therefore, it is not possible to set yearly targets and impose infringements on non-compliance on a yearly basis.

Amendment 613
Ville Niinistö

Proposal for a regulation
Article 1 – paragraph 1 – point 14
Regulation (EU) 2018/841
Article 13 c

Text proposed by the Commission

Article 13c

Governance of the targets

If the reviewed greenhouse gas emissions and removals of a Member State in 2032 exceed the annual targets of that Member State for any specific year of the period 2026 to 2030, ***taking into account the flexibilities used pursuant to Articles 12 and 13b***, the following measure shall apply:

An amount equal to the amount in tonnes of CO₂ equivalent of the excess greenhouse gas net emissions, multiplied by a factor of 1,08, shall be added to the greenhouse gas emission figure reported by that Member State in the following year, in accordance with the measures adopted pursuant to Article 15.

Amendment

Article 13c

Governance of the targets

If, as a result of the comprehensive review carried out by the Commission in 2032 pursuant to Article 14(2), the Commission finds that the reviewed greenhouse gas emissions and removals ***from cropland, grassland and wetlands*** of a Member State ***exceed the annual targets of that Member State for those land categories*** for any specific year of the period 2026 to 2030, the following measures shall apply:

(a) the Commission shall impose, in any relevant year of the period from 2026 to 2030, an excess premium on that Member State equivalent to the amount in tonnes of CO₂ equivalent of the sum of greenhouse gas net emissions in excess of the limit established by the linear trajectory set out pursuant to Article 4(3) multiplied by EUR 375;

(b) an amount equal to the amount in tonnes of CO₂ equivalent of the excess greenhouse gas net emissions, multiplied by a factor of 1,08, shall be added to the greenhouse gas emission figure ***for those land categories*** reported by that Member State in the following year, in accordance with the measures adopted pursuant to Article 15.

Or. en

Justification

Measures shall also be taken to ensure that Member States meet their sub-targets for GHG emissions and removals from cropland, grassland and wetlands.

Ivan David

Proposal for a regulation
Article 1 – paragraph 1 – point 14
Regulation (EU) 2018/841
Article 13 c – paragraph 2

Text proposed by the Commission

Amendment

An amount equal to the amount in tonnes of CO₂ equivalent of the excess greenhouse gas net emissions, multiplied by a factor of 1,08, shall be added to the greenhouse gas emission figure reported by that Member State in the following year, in accordance with the measures adopted pursuant to Article 15.; **deleted**

Or. en

Amendment 623
Inese Vaidere

Proposal for a regulation
Article 1 – paragraph 1 – point 14
Regulation (EU) 2018/841
Article 13 c – paragraph 2

Text proposed by the Commission

Amendment

An amount equal to the amount in tonnes of CO₂ equivalent of the excess greenhouse gas net emissions, multiplied by a factor of 1,08, shall be added to the greenhouse gas emission figure reported by that Member State in the following year, in accordance with the measures adopted pursuant to Article 15.; **deleted**

Justification

Setting binding annual targets and determine penalties on an annual basis and cumulate them is not suitable to a sector characterized by significant variability between years. It would give negative signal and incentivise to implement short term measures, which will further have a negative impact on long-term goals – EU become climate neutral by 2050 and afterwards achieving negative emissions. Forestry should be considered as a long-term policy.

Amendment 628

Michal Wiezik

Proposal for a regulation

Article 1 – paragraph 1 – point 14

Regulation (EU) 2018/841

Article 13 c – paragraph 2 a (new)

Text proposed by the Commission

Amendment

A Member State whose ratio of use of woody biomass for harvested wood products with carbon storage potential to biomass use for energy is worse than 2:1 shall not benefit from a derogation referenced in the previous subparagraph. That Member State shall as well be subject to a financial penalty of [applicable carbon price] per tonne of CO₂ equivalent in excess of the annual national target in the given year, in addition to 108% of the gap between the assigned target and the net removals reported in the given year, being added to the greenhouse gas emission figure reported in the subsequent year by the Member State.

Or. en

Justification

carbon released from the LULUCF does not cost anything unless the sector is a source of emissions, and this is used by the member states to allow for carbon being released in this sector in order to improve the situation in the sectors where carbon is increasingly expensive. But this is unsustainable way to go in this sector, which represents biosphere and our whole operating space. Unoptimal use of this biomass shall be penalised.

Amendment 629

Michal Wiezik, Nicolae Ștefănuță

Proposal for a regulation

Article 1 – paragraph 1 – point 14

Regulation (EU) 2018/841

Article 13 c – paragraph 2 a (new)

‘Article 13e

Just Transition

1. Member States shall carry out detailed Employment Impact Assessments (EIA) evaluating the impact that the obligations outlined in this regulation have on jobs, working conditions and gender equality both at national and regional levels. Employment Impact Assessments shall be conducted every two years from 2022 onwards and shall consider both the quantitative (number of jobs created and/or transformed and/or eliminated) as well as the qualitative effects (types and quality of jobs created and/or transformed and/or eliminated) on employment in any of the land reporting categories and/or sectors covered by article 2.

Member States shall submit Employment Impact Assessments to the Commission for the following two years by no later than 31 December. National social partners representing workers and employers in the land reporting categories and/or sectors covered by article 2 shall be

informed and consulted by Member States on the Employment Impact Assessments before submitting them to the European Commission.

National Employment Impact Assessments shall also be transmitted to the European Parliament.

When developing Employment Impact Assessments Member States shall use as reference the ILO Reference guide for Employment Impact Assessment (EIA)

2. Resources allocated to employers and managers in the land reporting categories and/or sectors covered by article 2 shall be conditional to the promotion of gender equality, the respect of applicable working and employment conditions and/or employer obligations resulting from all relevant collective agreements and social and labour law at national, Union and international levels.

3. Member States shall ensure that a significant proportion of the Union resources available for the implementation of this regulation are spent for quality job-creation, the strengthening of collective bargaining, life-long learning, vocational training, social protection measures and the promotion of gender equality.

4. Member States shall establish an action plan to deliver on the obligations outlined in article 13e (3), either by law after consulting social partners or in agreement between them, following a joint request, or with social partners. The action plan shall set out a clear timeline and concrete measures. The action plan shall be updated at least every two years, after consulting social partners, in agreement with social partners or between them, following a joint request. The action plan shall be made public and notified to the Commission. The Commission shall monitor progress and inform the European Parliament and the

Council annually in that regard.

5. Any restructuring operation that may result as a consequence of the implementation of this regulation, in particular those likely to have a negative impact on employment, shall be subject to effective information and consultation with trade unions with the aim to complement and without prejudice to the information and consultation procedures referred to in Directive 2002/14/EC of the European Parliament and of the Council^{1a} and to the specific procedures referred to in Article 2 of Council Directive 98/59/EC^{1b} and Article 7 of Council Directive 2001/23/EC^{1c} and in Directive 2009/38/EC^{1d}.

6. Member States shall ensure that any restructuring operation shall be integrated into a long-term strategy that aims to ensure and strengthen the long-term sustainability and competitiveness of the businesses through the anticipation of change and for forward planning of employment and skills needs.

7. When the need to restructure occurs, companies shall consider redundancies only as last resort and only after having considered all possible alternative options and identified supporting measures with the involvement of trade unions.

8. Member States shall ensure the timely consultation and effective involvement of national social partners in the land reporting categories and/or sectors outlined in article 2 with regard to the development and implementation of national measures implementing this regulation.

9. Effective, dissuasive and proportionate sanctions shall apply in case the obligations outlined in article 13e (5), 13e (6) and 13e (7) have been violated.’;

^{1a} Directive 2002/14/EC of the European Parliament and of the Council of 11 March 2002 establishing a general framework for informing and consulting employees in the European Community - Joint declaration of the European Parliament, the Council and the Commission on employee representation (OJ L 80, 23.3.2002, p. 29)

^{1b} Council Directive 98/59/EC of 20 July 1998 on the approximation of the laws of the Member States relating to collective redundancies (OJ L 225, 12.8.1998, p. 16).

^{1c} Council Directive 2001/23/EC of 12 March 2001 on the approximation of the laws of the Member States relating to the safeguarding of employees' rights in the event of transfers of undertakings, businesses or parts of undertakings or businesses (OJ L 82, 22.3.2001, p. 16).

^{1d} Directive 2009/38/EC of the European Parliament and of the Council of 6 May 2009 on the establishment of a European Works Council or a procedure in Community-scale undertakings and Community-scale groups of undertakings for the purposes of informing and consulting employees (OJ L 122, 16.5.2009, p. 28).

Amendment 649

Manuel Bompard

Proposal for a regulation

Article 1 – paragraph 1 – point 15 a (new)

(15a) The following Article 14a is inserted:

'Article 14a

Access to justice

1. Member States shall ensure that, in accordance with their national legal system, members of the public concerned who meet the conditions set out in paragraph 2, including individuals and non-governmental organisations, have access to a review procedure before a court of law or another independent and impartial body established by law to challenge the substantive or procedural legality of acts and omissions that fail to comply with legal obligations arising under Articles 4 to 10.

For the purposes of this paragraph, an act or omission that fails to comply with legal obligations under Article 4 includes an act or omission with respect to a policy or measure adopted for the purposes of implementing those obligations, where that policy or measure fails to make a sufficient contribution to such implementation.

2. Members of the public concerned meet the conditions referred to in paragraph 1 when :

(a) they have sufficient interest; or

(b) they maintain the impairment of a right, where administrative procedural law of a Member State requires this as a precondition.

What constitutes a sufficient interest shall be determined by Member States, consistently with the objective of giving the public concerned wide access to justice and in conformity with the Aarhus Convention on Access to Information,

***Public Participation in Decision-Making
and Access to Justice in Environmental
Matters.***

***To this end, the interest of any non-
governmental organisation promoting
environmental protection and meeting
any requirements under national law
shall be deemed to have sufficient interest
for the purposes of this paragraph.***

***3. Paragraphs 1 and 2 shall not
exclude the possibility of a preliminary
review procedure before an administrative
authority and shall not affect the
requirement of exhaustion of
administrative review procedures prior to
recourse to judicial review procedures,
where such a requirement exists under
national law. Any such procedure shall be
fair, equitable, timely and not
prohibitively expensive.***

***4. Member States shall ensure that
practical information is made easily
available to the public on access to
administrative and judicial review
procedures.'***

Or. en

Amendment 650

Jan Huitema, Ulrike Müller, Emma Wiesner

Proposal for a regulation

Article 1 – paragraph 1 – point 15 a (new)

Regulation (EU) 2018/841

Article 14 a (new)

Text proposed by the Commission

Amendment

***(15a) The following Article 14a is
inserted:***

"Article 14a

***The Commission shall present in 2022 a
legal framework with a market-based
design for the certification of carbon
removals through which land-users can***

receive direct incentives. By 31 December 2024 and every year thereafter, the Commission shall assess whether additional measures or funding is necessary to ensure the effectiveness of this framework in incentivising land-users to increase their carbon storage and to achieve the targets as set out in this regulation."

Or. en

Justification

Carbon farming schemes should be the main tool to achieve the targets as set out in this regulation. In order to achieve these ambitious goals, the Commission should evaluate their effectiveness continuously in the context of this regulation.

Amendment 651

Silvia Modig

Proposal for a regulation

Article 1 – paragraph 1 – point 15 b (new)

Regulation (EU) 2018/841

Article 14 a (new)

Text proposed by the Commission

Amendment

(15b) The following Article 14a is inserted:

‘Article 14a

Access to justice

1. Member States shall ensure that, in accordance with their national legal system, members of the public concerned who meet the conditions set out in paragraph 2, including individuals and non-governmental organisations, have access to a review procedure before a court of law or another independent and impartial body established by law to challenge the substantive or procedural legality of acts and omissions that fail to comply with legal obligations arising under Article 4. For the purposes of this paragraph, an act or omission that fails to

comply with legal obligations under Article 4 includes an act or omission with respect to a policy or measure adopted for the purposes of implementing those obligations, where that policy or measure fails to make a sufficient contribution to such implementation.

2. Members of the public concerned meet the conditions referred to in paragraph 1 when -

- (a) they have sufficient interest; or*
- (b) they allege the impairment of a right, where administrative procedural law of a Member State requires this as a precondition.*

What constitutes a sufficient interest shall be determined by Member States, consistently with the objective of giving the public concerned wide access to justice and in conformity with the Aarhus Convention on Access to Information, Public Participation in Decision-Making and Access to Justice in Environmental Matters. To this end, the interest of any non-governmental organisation promoting environmental protection and meeting any requirements under national law shall be deemed to have sufficient interest for the purposes of this paragraph.

3. Paragraphs 1 and 2 shall not exclude the possibility of a preliminary review procedure before an administrative authority and shall not affect the requirement of exhaustion of administrative review procedures prior to recourse to judicial review procedures, where such a requirement exists under national law. Any such procedure shall be fair, equitable, timely and not prohibitively expensive.

4. Member States shall ensure that practical information is made easily available to the public on access to administrative and judicial review procedures.'

Proposal for a regulation

Article 1 – paragraph 1 – point 16 a (new)

Regulation (EU) 2018/841

Article 15 a (new)

Text proposed by the Commission

Amendment

(16a) The following Article 15a is inserted:

'Article 15a

Access to justice

1. Member States shall ensure that, in accordance with their national legal system, members of the public concerned who meet the conditions set out in paragraph 2 have access to a review procedure before a court of law, or another independent and impartial body established by law, to challenge failure to comply with the legal obligations provided for in Articles 4 to 10.

2. Members of the public concerned shall be deemed to meet the conditions referred to in paragraph 1 when:

(a) they have sufficient interest; or

(b) they allege impairment of a right, where administrative procedural law of a Member State requires that as a precondition.

What constitutes a sufficient interest shall be determined by Member States, consistently with the objective of giving

the members of the public concerned wide access to justice and in conformity with the Aarhus Convention on Access to Information, Public Participation in Decision-Making and Access to Justice in Environmental Matters.

To that end, the interest of any non-governmental organisation promoting environmental protection and meeting any requirements under national law shall be deemed to have sufficient interest for the purposes of this paragraph.

3. Paragraphs 1 and 2 shall not exclude the possibility of being able to have recourse to a preliminary review procedure before an administrative authority and shall not affect the requirement to exhaust administrative review procedures prior to having recourse to judicial review procedures, where such a requirement exists under national law. Any such procedure shall be fair, equitable, timely and not prohibitively expensive.

4. Member States shall ensure that practical information is made easily available to the public on access to administrative and judicial review procedures.'

Or. en

Justification

The Commission's 2020 Communication on improving access to justice in environmental matters in the EU and its Member States underlined the need to include provisions on access to justice in EU legislative proposals new or revised EU law concerning environmental matters. The wording reflects provisions on access to justice in related legislation such as Article 25 of the Industrial Emissions Directive, 2010/75/EU.

Amendment 658

Ivan David

Proposal for a regulation

Article 1 – paragraph 1 – point 16 a (new)

(16a) The following Article 15a is inserted:

‘Article 15a

Procedure for natural disasters

1. Where forests in a Member State are damaged by a natural disaster or suffer damage as a result of pests, the Member State concerned may request an increase in the emission allocation distributed under the Regulation (EU) 2018/842 on binding annual greenhouse gas emission reductions by Member States from 2021 to 2030 contributing to climate action to meet commitments under the Paris Agreement by the equivalent of the emissions absorbed by the destroyed or damaged forest.

2. A Member State shall be entitled to an increase in the annual emission allocation only if the forest damaged in accordance with paragraph 1 is reforesting.

3. The increase in the allocation shall also be made for Member States whose forests were damaged in accordance with paragraph 1 in the years 2010-2021.

4. In justifying the request for an increase in the allocation, the affected Member State shall demonstrate:

(a) the extent of forest damage pursuant to paragraph 1,

(b) quantification of emissions absorbed by the damaged forest,

(c) calculation of the time necessary for reforestation and tree growth to a level that allows the original extent of emission absorption.

5. The Council, acting by a qualified

majority, shall decide on the request of the affected Member State to increase the emission limit. The decision shall specify the amount of the increase in the allocation and the period for which the Member State's allocation is increased’;

Or. en

Justification

The forests of several Member States have recently been hit hard by natural disasters. In the Czech Republic, Slovakia, Austria, Poland, Hungary, Germany and Romania, large areas of forests were destroyed by bark beetles and storms. Affected forests are not able to absorb emissions. I propose that the Council be able to increase the annual emission allocations at the reasoned request of the affected Member State. The condition for increasing the annual allocations is the reforestation of the affected forest.

Amendment

2. The Commission shall submit a report to the European Parliament and to the Council, no later than six months after **each** global stocktake agreed under Article 14 of the Paris Agreement, on the operation of this Regulation, including an assessment of the impacts of the flexibilities referred to in Article 11 **on the necessary increase in greenhouse gas emissions reductions and removals in the Union**, as well as on the contribution of this Regulation to the Union's **climate neutrality objective and intermediary climate targets set out in Regulation (EU) 2021/1119**, to the goals of the Paris Agreement, **and its contribution to other Union objectives and measures such as the 8th Environmental Action Programme, the EU Biodiversity Strategy for 2030 and the EU nature restoration targets. The report shall assess** in particular the need for additional Union policies and measures, **in particular taking into account any future improvement of the monitoring, data collection and reporting system concerning forests in the Union as announced under the New EU Forest Strategy for 2030, and** in view of the necessary increase in greenhouse gas emissions reductions and removals in the Union **and of the objective to protect and restore biodiversity and to ensure healthy ecosystems. The report shall take into account the best available and most recent scientific evidence, including the latest reports of the IPCC, IPBES and of the European Scientific Advisory Board on Climate Change referred to in Article 3 of Regulation (EU) 2021/1119.**

Amendment 664
Manuel Bompard

Proposal for a regulation

Article 1 – paragraph 1 – point 18

Regulation (EU) 2018/841

Article 17 – paragraph 2 – subparagraph 1

Text proposed by the Commission

2. The Commission shall submit a report to the European Parliament and to the Council, no later than six months after [...] global stocktake agreed under Article 14 of the Paris Agreement, on the operation of this Regulation, including, where relevant, an assessment of the impacts of the flexibilities referred to in Article 11, as well as on the contribution of this Regulation to the Union's **overall 2030 greenhouse gas emission reduction target** and its contribution to the goals of the Paris Agreement, in particular with regard to the need for additional Union policies and measures, in view of the necessary increase in greenhouse gas emissions reductions and removals in the Union.

Amendment

2. The Commission shall submit a report to the European Parliament and to the Council, no later than six months after **each** global stocktake agreed under Article 14 of the Paris Agreement, on the operation of this Regulation, including, where relevant, an assessment of the impacts of the flexibilities referred to in Article 11 **on the necessary increase in greenhouse gas emissions reductions and removals in the Union**, as well as on the contribution of this Regulation to the Union's **climate neutrality objective and intermediary climate targets set out in Regulation (EU) 2021/1119**, and its contribution to the goals of the Paris Agreement, **the Convention on Biological Diversity, as well as other Union objectives and measures such as the 8th Environmental Action Programme, the EU Biodiversity Strategy for 2030 and the EU nature restoration targets. The report shall assess** in particular with regard to the need for additional Union policies and measures, in view of the necessary increase in greenhouse gas emissions reductions and removals in the Union **and of the objective to protect and restore biodiversity and to ensure healthy ecosystems. The report shall take into account the best available and most recent scientific evidence, including the latest reports of the IPCC, IPBES and of the European Scientific Advisory Board on Climate Change referred to in Article 3 of Regulation (EU) 2021/1119.**

Or. en

Amendment 665
Inese Vaidere

Proposal for a regulation

Article 1 – paragraph 1 – point 18

Regulation (EU) 2018/841

Article 17 – paragraph 2 – subparagraph 1

Text proposed by the Commission

2. The Commission shall submit a report to the European Parliament and to the Council, no later than six months after [...] global stocktake agreed under Article 14 of the Paris Agreement, on the operation of this Regulation, including, where relevant, an assessment of the impacts of the flexibilities referred to in Article 11, as well as on the contribution of this Regulation to the Union's overall 2030 greenhouse gas emission reduction target and its contribution to the goals of the Paris Agreement, in particular with regard to the need for additional Union policies and measures, in view of the necessary increase in greenhouse gas emissions reductions and removals in the Union.

Amendment

2. The Commission shall submit a report to the European Parliament and to the Council, no later than six months after [...] global stocktake agreed under Article 14 of the Paris Agreement, on the operation of this Regulation, including, where relevant, an assessment of the impacts of the flexibilities referred to in Article 11, as well as on the contribution of this Regulation to the Union's overall 2030 greenhouse gas emission reduction target and its contribution to the goals of the Paris Agreement, in particular with regard to the need for additional Union policies and measures, in view of the necessary increase in greenhouse gas emissions reductions and removals in the Union. ***Following the report, the Commission shall make legislative proposals where it deems it appropriate. In particular, the proposals shall set out annual targets and governance aiming towards the 2035 climate-neutrality target as laid down in Article 4(4), additional Union policies and measures, and a post-2035 framework, including in the scope of the Regulation greenhouse gas emissions and removals from additional sectors, such as the marine and freshwater environment.***;

Or. en

Justification

It is premature to set up a framework for combined land sector (including non-CO2 emissions from livestock and fertiliser application) for the period from 2030 and to foreseen to set annual targets. Before setting a legal proposal for the period from 2030, there is a need to prepare a comprehensive impact assessment for the Member States and necessary improvements in the monitoring, reporting and verification system. The Regulation should

apply for 2030.

Amendment 666

Jan Huitema, Ulrike Müller

Proposal for a regulation

Article 1 – paragraph 1 – point 18

Regulation (EU) 2018/841

Article 17 – paragraph 2 – subparagraph 1

Amendment

2. The Commission shall submit a report to the European Parliament and to the Council, no later than six months after ***each*** global stocktake agreed under Article 14 of the Paris Agreement, on the operation of this Regulation, including an assessment of the impacts of the flexibilities referred to in Article 11 ***on the necessary increase in greenhouse gas emissions reductions and removals in the Union***, as well as on the contribution of this Regulation to the Union's ***climate***

Paris Agreement, in particular with regard to the need for additional Union policies and measures, in view of the necessary increase in greenhouse gas emissions reductions and removals in the Union.

neutrality objective and he goals of the Paris Agreement in particular with regard to the need for additional Union policies and measures, in view of the necessary increase in greenhouse gas emissions reductions and removals in the Union.

Or. en

Justification

LULUCF is an accounting framework for carbon emissions and removals. To ensure better regulation and avoiding excessive burden it should not be extended to encompass other policy areas.

Amendment 669

César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, Marcos Ros Sempere

Proposal for a regulation

Article 1 – paragraph 1 – point 18

Regulation (EU) 2018/841

Article 17 – paragraph 2 – subparagraph 2

Text proposed by the Commission

Amendment

Following the report, the Commission shall make legislative proposals where it deems it appropriate. In particular, the proposals shall set out annual targets and governance aiming towards the 2035 climate-neutrality target as laid down in Article 4(4), additional Union policies and measures, and a post-2035 framework, including in the scope of the Regulation greenhouse gas emissions and removals from additional sectors, such as the marine and freshwater environment.;

deleted

Or. en

Justification

The reference to the post 2030 period, exceeds the time frame of the full package. Any change in the standard reporting tables to the UNFCCC will have to be considered in the context of the LULUCF regulation, so there is no need for including this article.

Amendment 691

Norbert Lins, Christophe Hansen, Marlene Mortler, Jens Gieseke, Christian Doleschal, Marian-Jean Marinescu, Alexander Bernhuber, Herbert Dorfmann, Deirdre Clune, Sven Simon

Proposal for a regulation

Article 2 – paragraph 1 – point 2

Regulation (EU) 2018/1999

Article 4 – paragraph 1 – point a – point 1 – point ii

Text proposed by the Commission

the Member State's commitments and national targets for net greenhouse gas removals pursuant to Article 4(1) and (2) of Regulation (EU) 2018/841 and its contributions aim towards reaching the Union objective of reducing greenhouse gas emissions to net zero by 2035 and ***achieving negative emissions thereafter*** pursuant to Article 4(4) of that Regulation;;

Amendment

the Member State's commitments and national targets for net greenhouse gas removals pursuant to Article 4(1) and (2) of Regulation (EU) 2018/841 and its contributions aim towards reaching the Union objective of reducing greenhouse gas emissions to net zero by 2035 and pursuant to Article 4(4) of that Regulation;;

Or. en

Amendment 692

Amendment 694
Alexander Bernhuber, Angelika Winzig, Marlene Mortler, Simone Schmiedtbauer

Proposal for a regulation
Article 2 – paragraph 1 – point 2 a (new)
Regulation (EU) 2018/1999
Article 16 – subparagraph 1 a (new)

Text proposed by the Commission

Amendment

(2a) in Article 16, the following subparagraph 1a is added:

The Commission shall conduct a review of the current accounting system for methane to assess the difference between biogenic and fossil methane emissions, as

regards their respective sources and cycles, and to accurately reflect their warming potential, taking into account the lifecycle emissions and sink effects.

Or. en

Amendment 695

Norbert Lins, Christophe Hansen, Marlene Mortler, Jens Gieseke, Christian Doleschal, Marian-Jean Marinescu, Alexander Bernhuber, Herbert Dorfmann, Deirdre Clune, Sven Simon

Proposal for a regulation

Article 2 – paragraph 1 – point 3 – point a

Regulation (EU) 2018/1999

Article 38 – paragraph 1 a

Text proposed by the Commission

In 2025, the Commission shall carry out a comprehensive review of the national inventory data submitted by Member States pursuant to Article 26(4) of this Regulation, in order to determine the annual targets of net greenhouse gas emissions reduction of the Member States pursuant to Article 4(3) of Regulation (EU) 2018/841 and in order to determine the annual emission allocations of the Member States pursuant to Article 4(3) of Regulation (EU) 2018/842;

Amendment

In 2025, the Commission shall carry out a comprehensive review of the national inventory data submitted by Member States pursuant to Article 26(4) of this Regulation, in order *to assess the target set out in Article 4(3) of Regulation (EU) 2018/842 in accordance with Article 4(4a) of that Regulation and* to determine the annual targets of net greenhouse gas emissions reduction of the Member States pursuant to Article 4(3) of Regulation (EU) 2018/841 and in order to determine the annual emission allocations of the Member States pursuant to Article 4(3) of Regulation (EU) 2018/842;

Or. en

Amendment 703

César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, María Soraya Rodríguez Ramos, Marcos Ros Sempere

Proposal for a regulation

Annex III – paragraph 1

Regulation (EU) 2018/1999

Annex V – Part 3 – paragraph 1 – introductory sentence

Text proposed by the Commission

Amendment

‘Geographically explicit land-use conversion data in accordance with the 2006 IPCC Guidelines for national GHG inventories. The greenhouse gas inventory

Geographically explicit land-use conversion data in accordance with the 2006 IPCC Guidelines for national GHG inventories. The greenhouse gas inventory

shall operate on the basis of electronic databases and geographic information systems, *and* comprise:

could operate on the basis of electronic databases and geographic information systems, *for which the Union institutions will provide adequate support to the Member States, and could* comprise:

Or. en

Justification

This requirement goes far beyond the scope of this regulation and is a considerable increase in the current administrative burden, which is not acceptable. Also, the usefulness of such an effort is not proven, likely generating useless work for the Member States. Therefore, this must be no an obligation, but an encouragement based on adequate support to the Member States efforts in this regulation should focus on inventories improving the monitoring and estimation of carbon stocks, for which there is a lot of work pending in key areas such as organic carbon in soils, for instance.

Amendment 704

Martin Hojsik, Michal Wiezik

Proposal for a regulation

Annex III – paragraph 1

Regulation (EU) 2018/1999

Annex V – Part 3 – paragraph 1– introductory part

Text proposed by the Commission

‘Geographically explicit land-use conversion data in accordance with the 2006 IPCC Guidelines for national GHG inventories. The greenhouse gas inventory shall operate on the basis of electronic databases and geographic information systems, and comprise:

Amendment

‘Geographically explicit land-use conversion data in accordance with the 2006 *and 2013^{1a}* IPCC Guidelines for national GHG inventories. The greenhouse gas inventory shall operate on the basis of electronic databases and geographic information systems, and comprise:

^{1a} 2013 Supplement to the 2006 IPCC Guidelines for National Greenhouse Gas Inventories: Wetlands, available at: <https://www.ipcc-nggip.iges.or.jp/public/wetlands/>

Or. en

Justification

To ensure that the data are based on latest knowledge and methodologies, the latest IPCC Guidelines from 2013 that Supplement the 2006 IPCC Guidelines for National Greenhouse Gas Inventories should be used to monitor and report LULUCF sector.

Amendment 705

Martin Hojsik, Michal Wiezik, María Soraya Rodríguez Ramos, Nicolae Ștefănuță

Proposal for a regulation

Annex III – paragraph 1

Regulation (EU) 2018/1999

Annex V – Part 3 – paragraph 1 – point a a (new)

Text proposed by the Commission

Amendment

(aa) 'Land Use/Land Cover Area Frame Survey (LUCAS) datasets generated by annual, harmonised surveys across all Member States to gather information on land cover and land use, measure soil carbon stocks and analyse all relevant parameters affecting the potential of soil to sequester carbon and soil health; Member States shall increase the depth at which sampling of organic carbon content in soil and of carbon stocks is carried out, namely to use the 30 cm from the LUCAS soils 2022 protocol as a minimum.^{1a}

1a

<https://publications.jrc.ec.europa.eu/repository/handle/JRC121253>

Or. en

Justification

Data on soils carbon content and carbon stocks to 30 cm will exist everywhere in Europe in 2022; nevertheless, Member States should be motivated to use it as a minimum. This information will also help to put in place sound certification of carbon removals as foreseen by the Commission in the LULUCF.

Or. en

Amendment 715
César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, María Soraya Rodríguez Ramos, Marcos Ros Sempere

Proposal for a regulation
Annex III – paragraph 1
Regulation (EU) 2018/1999
Annex V– Part 3 – paragraph 3

Text proposed by the Commission

For the period 2021-2025, Tier 1 methodology in accordance with the 2006 IPCC guidelines for national GHG inventories. For emissions and removals for a carbon pool that accounts for at least 25-30 % of emissions or removals in a source or sink category which is prioritised within a Member State's national inventory system because its estimate has a significant influence on a country's total inventory of GHGs in terms of the absolute level of emissions and removals, the trend in emissions and removals, or the uncertainty in emissions and removals in the land use categories, **and from 2026 for all carbon pool emission and removal estimates**, at least Tier 2 methodology in accordance with the 2006 IPCC guidelines for national GHG inventories.

Amendment

For the period 2021-2025, Tier 1 methodology in accordance with the 2006 IPCC guidelines for national GHG inventories. For emissions and removals for a carbon pool that accounts for at least 25-30 % of emissions or removals in a source or sink category which is prioritised within a Member State's national inventory system because its estimate has a significant influence on a country's total inventory of GHGs in terms of the absolute level of emissions and removals, the trend in emissions and removals, or the uncertainty in emissions and removals in the land use categories at least Tier 2 methodology in accordance with the 2006 IPCC guidelines for national GHG inventories.

Or. en

Justification

This requirement goes far beyond the scope of this regulation and is a considerable increase in the current administrative burden, which is not acceptable. Also, the usefulness of such an effort is not proven, likely generating useless work for the Member States. Therefore, this must be not an obligation, but an encouragement based on adequate support to the Member States efforts in this regulation should focus on inventories improving the monitoring and estimation of carbon stocks, for which there is a lot of work pending in key areas such as organic carbon in soils, for instance.

Amendment 716
Martin Hojsik, Michal Wiezik

Proposal for a regulation
Annex III – paragraph 1
Regulation (EU) 2018/1999
Annex V– Part 3 – paragraph 3

Text proposed by the Commission

For the period 2021-2025, Tier 1 methodology in accordance with the 2006 IPCC guidelines for national GHG inventories. For emissions and removals for a carbon pool that accounts for at least 25-30 % of emissions or removals in a source or sink category which is prioritised within a Member State's national inventory system because its estimate has a significant influence on a country's total inventory of GHGs in terms of the absolute level of emissions and removals, the trend in emissions and removals, or the uncertainty in emissions and removals in the land use categories, and from 2026 for all carbon pool emission and removal estimates, at least Tier 2 methodology in accordance with the 2006 IPCC guidelines for national GHG inventories.

Amendment

For the period 2021-2025, **at least** Tier 1 methodology in accordance with the 2006 **and 2013** IPCC guidelines for national GHG inventories. For emissions and removals for a carbon pool that accounts for at least 25-30 % of emissions or removals in a source or sink category which is prioritised within a Member State's national inventory system because its estimate has a significant influence on a country's total inventory of GHGs in terms of the absolute level of emissions and removals, the trend in emissions and removals, or the uncertainty in emissions and removals in the land use categories, and from 2026 for all carbon pool emission and removal estimates, at least Tier 2 methodology in accordance with the 2006 **and 2013** IPCC guidelines for national GHG inventories.

Or. en

Justification

To ensure that the data are based on latest knowledge and methodologies, the latest IPCC Guidelines from 2013 that Supplement the 2006 IPCC Guidelines for National Greenhouse Gas Inventories should be used to monitor and report LULUCF sector. Furthermore, Member States should be allowed to use higher Tier already for the period 2021-2025.

Amendment 717
Liudas Mažylis

Proposal for a regulation
Annex III – paragraph 1
Regulation (EU) 2018/1999
Annex V– Part 3 – paragraph 4

Text proposed by the Commission

Member States **shall** from 2026 for all carbon pool emission and removal estimates falling in areas of high carbon stock land use units referred to in point (c)

Amendment

Member States **are encouraged** from 2026 for all carbon pool emission and removal estimates falling in areas of high carbon stock land use units referred to in point (c)

above, areas of land use units under protection or under restoration referred to in points (d) and (e) above, and areas of land use units under high future climate risks referred to in point (f) above, apply Tier 3 methodology, in accordance with the 2006 IPCC guidelines for national GHG inventories.’.

above, areas of land use units under protection or under restoration referred to in points (d) and (e) above, and areas of land use units under high future climate risks referred to in point (f) above, apply Tier 3 methodology, in accordance with the 2006 IPCC guidelines for national GHG inventories.’.

The Commission should ensure collection and analyses of GIS geo-spatial data at the EU level and in cooperation with the European Environmental Agency, the European Scientific Advisory Board on Climate Change and the Commission’s Joint Research Centre and other bodies, as well as the Earth observation data provided by the European Earth Observation Programme Copernicus, provide assistance to the Member States to apply Tier 3 methods in order to ensure consistency and transparency of the data from 2026 onwards.

Or. en

Justification

Enhancement of the LULUCF sector GHG monitoring and reporting and mandatory requirements to apply higher Tier 3 methods and GIS geo-spatial data for emissions accounting as well as establishment of monitoring systems to track land-use conversion of high-carbon stock land will increase unproportioned administrative burden in short term as from 2026. The proposed mandatory reporting changes are going beyond the reporting requirements agreed under UNFCCC. Therefore, the Commission should ensure collection and analyses of GIS geo-spatial data at the EU level from 2026 onwards.

Proposal for a regulation

Annex III – paragraph 1

Regulation (EU) 2018/1999

Annex V – Part 3 – paragraph 4

Text proposed by the Commission

Member States shall from 2026 for all carbon pool emission and removal estimates falling in areas of high carbon stock land use units referred to in point (c) above, areas of land use units under protection or under restoration referred to in points (d) and (e) above, and areas of land use units under high future climate risks referred to in point (f) above, apply Tier 3 methodology, in accordance with the 2006 IPCC guidelines for national GHG inventories.’.

Amendment

Member States shall from 2026 for all carbon pool emission and removal estimates falling in areas of high carbon stock land use units referred to in point (c) above, areas of land use units under protection or under restoration referred to in points (d) and (e) above, and areas of land use units under high future climate risks referred to in point (f) above, apply Tier 3 methodology, in accordance with the 2006 **and 2013** IPCC guidelines for national GHG inventories.’.

Justification

To ensure that the data are based on latest knowledge and methodologies, the latest IPCC Guidelines from 2013 that Supplement the 2006 IPCC Guidelines for National Greenhouse Gas Inventories should be used to monitor and report LULUCF sector.

Amendment 720**Delara Burkhardt, Günther Sidl****Proposal for a regulation****Annex III a (new)**

Regulation (EU) 2018/841

Annex VIII (new)

*Text proposed by the Commission**Amendment*

The following Annex VIII (new) to Regulation (EU) 2018/841 is inserted:

Annex VIII (new)

Information requirements for the application of the natural disturbances solidarity mechanism

1. For the calculation of the background level, the following information shall be provided:

(a) historical levels of emissions caused by natural disturbances;

(b) the type(s) of natural disturbance included in the estimation;

(c) total annual emissions estimations for those natural disturbance types for the period from 2006 to 2025, listed by land accounting categories;

(d) a demonstration of the time series consistency in all relevant parameters, including minimum area, emission estimation methodologies, coverages of carbon pools and gases.

2. The background level is calculated as the average of the 2006-2025 time series excluding all years for which abnormal levels of emissions were

recorded, i.e. excluding all statistical outliers. The identification of statistical outliers shall be undertaken as follows:

(a) calculate the arithmetic average value and the standard deviation of the full time series 2006-2025;

(b) exclude from the time series all years for which the annual emissions are outside twice the standard deviation around the average;

(c) calculate again the arithmetic average value and the standard deviation of the time series 2006-2025 minus the years excluded in point (b);

(d) repeat points (b) and (c) until no outliers can be identified.

3. After calculating the background level pursuant to point 2 of this Annex, if emissions in a particular year in the periods from 2026 to 2030 exceed the background level plus a margin, the amount of emissions exceeding the background level may be excluded in accordance with Article 13b. The margin shall be equal to a probability level of 95 %.

4. Information requirements pursuant to Article 13b(3)(aa) shall include the following:

(a) identification of all land areas affected by natural disturbances in that particular year, including their geographical location, the period and types of natural disturbances;

(b) evidence that no deforestation or other land conversion resulting in greenhouse gas emissions has occurred during the rest of the period from 2026 to 2030 on lands that were affected by natural disturbances and in respect of which emissions are to be compensated via the natural disturbances solidarity mechanism

(c) a description of verifiable methods and criteria to be used to identify

deforestation and other land conversion resulting in greenhouse gas emissions on those lands in the subsequent years of the period from 2026 to 2030;

(d) a description of measures the Member State undertook to prevent or limit the impact of those natural disturbances;

(e) a description of measures the Member State undertook to rehabilitate the lands affected by those natural disturbances.

5. The following emissions shall not be included for the purpose of application of the natural disturbances solidarity mechanism:

(a) emissions resulting from harvesting and salvage logging activities that took place on land following the occurrence of natural disturbances;

(b) emissions resulting from prescribed burning that took place on land in any year of the period from 2026 to 2030;

(c) emissions on lands that were subject to deforestation following the occurrence of natural disturbances.

Amendment

deleted

Or. en

Justification

No-debit rule” at country level must be preserved as a principle, implying bigger efforts (compared to current proposal) in MSs with current net emissions in LULUCF. Additional efforts to reach EU 2030 goal must be based on existing projections considering national circumstances - growth rates, age-related issues or expected climate change impacts and taking into account cost-effectiveness criteria (i.e. different costs across Member states for reaching their targets).

Slovenia	<i>[-146]</i>
Slovakia	<i>[-6 821]</i>
Finland	<i>[-17 754 ?]</i>
Sweden	<i>[-47 321]</i>
EU-27	<i>[-310 000]</i>

Or. en

Justification

The revised proposal has been done so in an unfair manner, and this amendment is to provide the possibility to correct this in line with factors taken into consideration in Article 4(2).

Table 12 in Annex 10.5 (page 91) of the Impact Assessment (SWD) indicates the targets with the existing LULUCF regulation.

The legally binding target of the Climate Law is 225 Mt CO₂ eq. removals. Targets going above this ought to be encouraged, but fairly.

Or. en

Justification

In the interest of transparency and pursuing fair distribution of targets among Member States, it would be important to have side by side the recorded average of the years 2016-2019. When the data for 2020 and 2021 become available, this too should be updated. Forests develop and change over decades, and a short window period is generally insufficient to set targets properly. Figures taken from UNFCCC submissions. Note that EEA figures are slightly different.

Amendment 729

César Luena, Javi López, Nicolás González Casares, Estrella Durá Ferrandis, Marcos Ros Sempere

Proposal for a regulation

Annex II – paragraph 1

Regulation (EU) 2018/841

Annex II a – introductory sentence

Text proposed by the Commission

The Union target and the national targets of the Member States of net greenhouse gas removals pursuant to Article 4(2) to be achieved in 2030

Amendment

The national targets of the Member States of net greenhouse gas removals pursuant to Article 4(2) to be achieved in 2030 ***and the EU objective that has to be built upon best available data made public shall consider the following elements in its distribution:***

- the average greenhouse gas emissions and removals from the years 2018, 2019 and 2020, reported by each Member State;***
- the proposed objectives may not be lower than the baseline representing the no debit benchmark and emission reductions shall be prioritized;***
- the Member State's absorption potential linked to biophysical factors such as aridity and foreseen impacts of climate change on ecosystems that result on different biomass growth rates;***
- the capacity of the Member States to improve its performance in the sector via land management practices or changes in land use that benefit the climate and biodiversity; and***
- the reduction of LULUCF emissions as a priority, before increasing removals.***

Or. en

Justification

No-debit rule” at country level must be preserved as a principle, implying bigger efforts (compared to current proposal) in MSs with current net emissions in LULUCF. Additional efforts to reach EU 2030 goal must be based on existing projections considering national circumstances - growth rates, age-related issues or expected climate change impacts and taking into account cost-effectiveness criteria (i.e. different costs across Member states for reaching their targets).

Amendment 730

Anna Zalewska, Alexandr Vondra, Roberts Zīle, Veronika Vrecionová

Proposal for a regulation

Annex II – paragraph 1

Regulation (EU) 2018/841

Annex II a – table 1 – introductory sentence

Text proposed by the Commission

The Union target and the national targets of the Member States of net greenhouse gas removals pursuant to Article 4(2) *to* be achieved in 2030

Amendment

The Union target and the national targets of the Member States of net greenhouse gas removals pursuant to Article 4(2) *in Regulation (EU) 2018/841 which may* be achieved in 2030 *according to the baseline scenario analysis*

Or. en

Justification

Table 1 is amended, for information and transparency purposes, to show the current set national targets of Member States in Regulation (EU) 2018/841 and enable comparison for, where necessary, revising the methodology and targets of Member States. At present, 7 Member States have smaller targets in the Commission revision proposal than in the baseline scenario of Member States as depicted in Annex 10.5 of the SWD Impact Assessment (page 91), which, must of course take into consideration national circumstances.

Amendment 731

Emma Wiesner, Jessica Polfjärd

Proposal for a regulation

Annex II – paragraph 1

Regulation (EU) 2018/841

Annex II a – introductory sentence

Text proposed by the Commission

The Union target and the national targets of the Member States of net greenhouse gas removals pursuant to Article 4(2) *to be* achieved in 2030

Amendment

The *indicative* Union target and the national *indicative* targets of the Member States of net greenhouse gas removals pursuant to Article 4(2) *to be* achieved in 2030

Or. en

Justification

Due to the large uncertainty that carbon sinks show, such as annual fluctuations caused by the specific nature of the sector, it is not appropriate to have binding targets.

Amendment 732

Anna Zalewska, Alexandr Vondra, Roberts Zīle, Veronika Vrecionová

Proposal for a regulation

Annex II – paragraph 1

Regulation (EU) 2018/841

Annex II a – table 2 – introductory sentence

Text proposed by the Commission

Amendment

The Union target and the national targets of the Member States of net greenhouse gas removals pursuant to Article 4(2) which the Union and Member States are encouraged, where possible, to pursue to 2030

Or. en

Justification

Table 2 is added to list the Union target and the national targets of net greenhouse gas removals based on the adjusted methodology, if it would be necessary, in the interest of transparency and clarity.

Amendment 733

Anna Zalewska, Alexandr Vondra, Roberts Zīle, Veronika Vrecionová

Proposal for a regulation

Annex II – paragraph 1

Regulation (EU) 2018/841

Annex II a – table 3 – introductory sentence

Text proposed by the Commission

Amendment

The Union and the national levels of the Member States of net greenhouse gas removals averaged for the years 2016, 2017, 2018 and 2019.

Justification

In the separate document, table 3 is added, which for the purposes of transparency includes the average Union and national levels of net greenhouse gas removals/emissions in order to display the different referencing points of Member States and help to compare their 2030 targets, in the interest of clarity and transparency.

 Regulation (EU) 2018/1999
 Annex V – Part 2

<i>Present text</i>	<i>Amendment</i>
	<i>Part 2 of Annex V of Regulation (EU) 2018/1999 is amended as follows:</i>
The GHGs to be covered are:	The GHGs to be covered are:
Carbon dioxide (CO ₂)	Carbon dioxide (CO ₂)
Methane (CH ₄)	<i>Biogenic and fossil</i> methane (CH ₄)
Nitrous Oxide (N ₂ O)	Nitrous Oxide (N ₂ O)
Sulphur hexafluoride (SF ₆)	Sulphur hexafluoride (SF ₆)
Nitrogen trifluoride (NF ₃)	Nitrogen trifluoride (NF ₃)
HFC-236cb CF ₃ CF ₂ CH ₂ F	HFC-236cb CF ₃ CF ₂ CH ₂ F
HFC-236ea CF ₃ CHFCHF ₂	HFC-236ea CF ₃ CHFCHF ₂
HFC-236fa CF ₃ CH ₂ CF ₃	HFC-236fa CF ₃ CH ₂ CF ₃
HFC-245fa CHF ₂ CH ₂ CF ₃	HFC-245fa CHF ₂ CH ₂ CF ₃
HFC-245ca CH ₂ FCF ₂ CHF ₂	HFC-245ca CH ₂ FCF ₂ CHF ₂
HFC-365mfc CH ₃ CF ₂ CH ₂ CF ₃	HFC-365mfc CH ₃ CF ₂ CH ₂ CF ₃
HFC-43-10mee CF ₃ CHFCHF ₂ CF ₃ or (C ₅ H ₂ F ₁₀)	HFC-43-10mee CF ₃ CHFCHF ₂ CF ₃ or (C ₅ H ₂ F ₁₀)
HFC-236cb CF ₃ CF ₂ CH ₂ F	HFC-236cb CF ₃ CF ₂ CH ₂ F
HFC-236ea CF ₃ CHFCHF ₂	HFC-236ea CF ₃ CHFCHF ₂
HFC-236fa CF ₃ CH ₂ CF ₃	HFC-236fa CF ₃ CH ₂ CF ₃
HFC-245fa CHF ₂ CH ₂ CF ₃	HFC-245fa CHF ₂ CH ₂ CF ₃

HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
HFC-236cb CF₃CF₂CH₂F
HFC-236ea CF₃CHFCHF₂
HFC-236fa CF₃CH₂CF₃
HFC-245fa CHF₂CH₂CF₃
HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
HFC-236cb CF₃CF₂CH₂F
HFC-236ea CF₃CHFCHF₂
HFC-236fa CF₃CH₂CF₃
HFC-245fa CHF₂CH₂CF₃
HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
HFC-236cb CF₃CF₂CH₂F
HFC-236ea CF₃CHFCHF₂
HFC-236fa CF₃CH₂CF₃
HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
Perfluorocarbons (PFCs) :
PFC-14, Perfluoromethane, CF₄
PFC-116, Perfluoroethane, C₂F₆
PFC-218, Perfluoropropane, C₃F₈
PFC-318, Perfluorocyclobutane, c-C₄F₈
Perfluorocyclopropane c-C₃F₆
PFC-3-1-10, Perfluorobutane, C₄F₁₀
PFC-4-1-12, Perfluoropentane, C₅F₁₂

HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
HFC-236cb CF₃CF₂CH₂F
HFC-236ea CF₃CHFCHF₂
HFC-236fa CF₃CH₂CF₃
HFC-245fa CHF₂CH₂CF₃
HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
HFC-236cb CF₃CF₂CH₂F
HFC-236ea CF₃CHFCHF₂
HFC-236fa CF₃CH₂CF₃
HFC-245fa CHF₂CH₂CF₃
HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
HFC-236cb CF₃CF₂CH₂F
HFC-236ea CF₃CHFCHF₂
HFC-236fa CF₃CH₂CF₃
HFC-245ca CH₂FCF₂CHF₂
HFC-365mfc CH₃CF₂CH₂CF₃
HFC-43-10mee CF₃CHFCHF₂CF₃ or
(C₅H₂F₁₀)
Perfluorocarbons (PFCs) :
PFC-14, Perfluoromethane, CF₄
PFC-116, Perfluoroethane, C₂F₆
PFC-218, Perfluoropropane, C₃F₈
PFC-318, Perfluorocyclobutane, c-C₄F₈
Perfluorocyclopropane c-C₃F₆
PFC-3-1-10, Perfluorobutane, C₄F₁₀
PFC-4-1-12, Perfluoropentane, C₅F₁₂

PFC-5-1-14, Perfluorohexane, C6F14
PFC-9-1-18, C10F18

PFC-5-1-14, Perfluorohexane, C6F14
PFC-9-1-18, C10F18
